

## Student Quarantine and Isolation Guide

IF	# OF QUARANTINE DAYS (at least)	What IF?
Student tests positive for COVID19	<b>10</b>	note: The <b>PCR COVID19 test is the acceptable test</b> , per DHS guidelines
<p><i>Student has <b>one of the following symptoms:</b> cough, fever 100.4 or greater, vomiting, diarrhea, shortness of breath, or new loss of taste or smell, chest pain, loss of speech or mobility, confusion.</i></p> <p><i>Student has <b>two or more of the following symptoms:</b> sore throat, unusual fatigue, runny nose, nasal congestion, headache, muscle/body aches, nausea(sick to stomach), rash or discoloration on hands or feet, red/irritated eyes.</i></p>	<b>10</b>	Student tests negative? They can return after being symptom free for 24 hours. <i>*it is recommended by the DHS to wait 4-5 days after symptoms appear, to have a PCR test done</i>
<b>Household Close Contact:</b> Someone in the student's household tested positive for COVID19	<b>17-20</b>	Student tests negative? As long as a student does not have symptoms, they can end their quarantine <b>after 17 days</b> , <b>if</b> they have a negative PCR test result, <b>taken on or after day 16</b> . (Or 20 days without test)
<b>Nonhousehold Close Contact:</b> Someone the student has been in "close contact" with, tested positive for COVID19.	<b>7-10</b>	Student tests negative? As long as student does not have any symptoms, they can end their quarantine <b>after 7 days</b> <b>if</b> they have a negative PCR test result, <b>taken on or after day 6</b> . (or 10 days without a test)
<p><i>Students will become virtual learners while on quarantine time.</i></p> <p><i>Quarantine from date of positive test (if student is tested), or date of onset of symptoms.</i></p> <p><i>With all cases, student has to be symptom free for 24 hours prior to returning to school.</i></p> <p><i>Ex: a positive case would result in 10 days and 24 hours symptom free.</i></p> <p><i>For close contact quarantines, continue to monitor for symptoms 4 more days after quarantine period is over.</i></p> <p><i>If a member of your household is tested for COVID-19, all household members should quarantine until results arrive.</i></p>		<p>revised 2/2/2021</p> <p>This document was created and adopted as recommendation from the CDC, DHS, WHO, and WOPHD.</p>
