RMS: COVID 19 Results YTD

Updated Thursday Feb 25, 2021 at 4:00pm

	STUDENTS	STAFF
Positive School Related Cases	11	3
Total Positive Cases	26	10
Close Contact School Related Exposures	108	10
Total Close Contact Exposures	137	13

Positive School Related Cases	Cases that occurred during school and impacted students/staff.
Total Positive Cases	In addition to "Positive School Related Cases," this category adds positive cases that were confirmed when someone was out on quarantine or a positive case that did not impact students/staff. (i.e. a family member had Covid and passed it to another family member or a student/staff member became symptomatic/tested positive outside of our contact tracing period)
Close Contact School Related Exposures	These exposures reflect all of the students/staff who were quarantined because someone at school tested positive.
Total Close Contact Exposures	In addition to "Close Contact School Related Exposures," this category adds close contact cases that resulted due to exposures outside of school. (i.e. at a party, wedding, family event, sports)
